

People Management made Easy

ValueVision Technologies is an Enterprise Software company committed to deliver world class products to our esteemed clientele. We are offering our products on Cloud Computing platform. Our Software as a Service(SaaS) delivery model comes at affordable pricing. Cost conscious companies can leverage our high quality products and optimize their resource utilization.

We specialize in **Human Capital Management** which forms the core for any organization.

Humane is our Human Capital Management product which is designed to effectively manage the Human Resource in hand as well as in the bush. Our product is designed based on the fundamental principle that **people** are the most important resource of an organization and need to be capitalized on. *Humane* enable our customers to transform their 'Human Resource' into 'Human Capital'.

Advantages of *Humane* for **Employees**

It can act as an interface to interact regarding their skills both holding as well as aspiring ones. *Humane* serves as a guide for Human development by possessing an interactive training guide where appropriate customized material too can be fed as per the organization requirement.

Advantages of *Humane* for **HR Managers**

It reduces a lot of their pressure by serving for automated reports(which can be customized as per individual client requirements), user friendly interface for optimum navigation, also returning the data

within split seconds. Our recruitment module is designed to do auto-searching of available candidates in market for required skills, which gives HR managers a relief from that unwanted follow up loop and commission they need to do with placement companies.

Advantages of **Humane** for **Organization**

It is our unconventional, unorthodox Human resource product which takes the Human resource and its management to a different desired level and helps in better functioning of organization as a whole. **Humane** has conventional modules such as **basic employee data maintenance, Leave management, Time management, Recruitment, Induction, Training, Payroll** etc and our unique Employee Retention module. Our **Retention** module particularly helps managers to retain cream employees, using our proprietary analytical tools in the module.

We, at ValueVision Technologies, thrive on innovating existing business practices using cutting-edge technologies and our technical warheads, coupled with **customer oriented operational leverage** (COOL)

Quality standards maintained by ValueVision Technologies can help you to assemble, optimize, and manage the HR backbone of your organization, which puts your business data to work, so that you get the maximum value from your HR investment.

So do you want to sleep peacefully or worry about your Human Resources? If you go for the former, please reach us in the following contact details.
